immediately, and then of course there are the modern-day military weapons of mass destruction that man has made that can destroy all human life from off this planet! In fact some human governments such as China already have in place the technology that can spy on their citizens called 'face recognition', pictures made of citizens that can track their whereabouts 24 hours a day and are also able to tap into their smart phones to listen in on their phone conversations. This should alert us that social media will be one of the methods used to persecute God's Church!

We should be deeply concerned about where all of these trends are leading to, yet not be afraid, because if we are obeying God's instructions to prepare ahead, we will not be caught in a snare! Let us not fall prey to the temptations that tempt and attract us, making sure we are drawing closer to Jesus Christ and God the Father in seeking God's Kingdom, as our first priority!

A New World Coming

Each of us has a duty to perform every day of our lives and let us remember how precious you are to God and Christ; because God has only **called out** a few in this world because of His Grace and mercy to be His begotten children now. We are being trained to become His spirit-born sons and daughters to dwell with Almighty God and Jesus Christ forever!

So let us make ourselves ready to be with Christ as He descends back down to earth upon the Mount of Olives, to begin His 1,000 year reign (1 Thes. 4:16)!

George A. Bratcher
